2006 Technology Choice Award Winners

OCTOBER 09, 2006 --

Dear Reader,

It is with tremendous pride and pleasure that Multi-Housing News presents to you the 2006 winners of our Technology Choice Awards, recognizing those firms that stand apart from the rest and deserve to be celebrated as the industry's very best.

We salute each of these winners because they have earned the respect and admiration of some of the toughest critics: you and your peers, who cast your votes by the thousands this summer, according to strict criteria, to determine the top technology providers in each of 10 categories.

We're confident that you will find this winner's list to be an invaluable resource—the ideal place to turn throughout the year for insight and information on those companies that will be able to meet all your technology needs and exceed your highest expectations. To make sure you'll be able to consult the winner's list from anywhere at anytime, we are showcasing the winners on our Web site at: www.multi-housingnews.com.

Again, our congratulations to this year's richly deserving winners—and our sincere thanks to all of you who took the time to cast ballots.
